## KANSAS LICENSE PLATE GUIDE

The Division of Vehicles implemented a new manufacturing process and delivery method for Kansas license plates. The change became effective August 1, 2018 for license plates issued to Apportioned vehicles engaged in interstate commerce. For all passenger vehicles and intrastate Commercial vehicles, the change became effective August 15, 2018.

**NOTE:** Although limited, there are some old Capital/Dome embossed plates still on the road. They can be Standard, Standard Disabled, Amateur Radio, Special Interest and Street Rod in design. These are rare and are slowly being replaced.

There are 12 new digital plates added for the 2022 year. They are labeled with 2022 below their name. The dealer plates have changed color to all black.

There should be no more 2015 Personalized plates on the road.

However, there will also be a new set of personalized plates on the standard Ad Astra background, both regular and disabled.

<sup>3</sup> Kansas antique vehicle owners are allowed to display a Kansas issued license plate that corresponds to the vehicle year of the antique, providing the vehicle and license plate are at least thirty-five years old. *Example: 1956 Ford with Kansas License plate initially issued in 1956 will have a "56" on the plate. The plate used must not be altered or defaced and must be as originally issued by the State of Kansas.*

<sup>4</sup> Motor vehicle more than 20 years of age and which has not been altered or modified from the original manufacturer's specifications except to assure normal running operation or to meet specific safety inspection requirements on original equipment, or both.

<sup>5</sup> Manufactured in 1949 or before that has been altered or modified. The main component of a street rod that must still be part of the original vehicle is the body, i.e. the body must be all original steel. "Kit Cars" do not qualify as street rod vehicles.
